Logo GO 3 international suggested price list

Valid from January 20, 2022

− Descriptions

1. All price and price-related conditions in this price list (including but not limited to license prices, training prices and training durations) are advisory only and are non-binding by Logo.
2. All our prices are in USD.
3. Prices may differ depending on valid Logo Enterprise Membership (LEM) contracts in progress, except for the main package and transitional package prices.

− LEM (Logo Enterprise Membership)

4. LEM is a subscription system that provides the latest version of the products used, new features added and performance improvements, and enables special prices for user increase, employee increase and modules to be purchased.
5. For main package purchases, 1-year LEM is free of charge. For product transition purchases;
   • In free and paid transitions within the same segment, LEM validity of the previous product is transferred in a way that will be maintained in the new product (with the same start and end dates).
   • In paid transitions to the upper segment (such as Tiger 3 to Tiger 3 Enterprise), 1-year free LEM is given for the new product (as of the date of transition to the new product).
6. LEM validity period is 1-year, renewal date will start from the end date of the previous LEM.
7. Users who regularly renew LEM before or within 30 days of the end date, have the chance to renew LEM at reduced prices by benefit from loyalty discount.
8. If LEM validity is expired; additional modules, user increase and employee increase bought "by the valid prices for users have LEM", cannot not be installed.
9. LEM must be renewed within 30 days of the end date. During this period if LEM is not renewed, users will be charged with an additional 10% delay fee.
10. LEM price is calculated by the latest configuration (main package, module, user/employee increase) in the product. User increases are included in the LEM price calculation from the moment they are purchased. LEM price calculation for optional modules is made by taking into consideration the next end date of LEM. For each module 1-year after its purchase, the period between the end of the 1-year and the end date of the new Standard LEM is checked and the remaining months are included in the LEM price calculation.
11. Logo Business Partner's service fees such as technical support and product installation are not included in LEM prices.
12. Products that are discontinued by Logo are not included in LEM calculation.

− Training

13. The training prices may differ depending on countries, please contact your business partner for the training fees.
14. Product related trainings are provided by certified Logo Business Partners. Demands such as identification, customization and reporting are evaluated separately.
15. It is highly recommended that training and support services to be obtained only from authorized Logo Business Partners which can be found at Logo web site (www.logo.com.tr/en) and certified training specialists.

− Explanations

1. Logo GO 3 product and its options can be used by maximum 16 users.
2. Logo GO 3 Main Pack includes; Stock (Invoice, Order, Costing, Dynamic Unit Equivalent Commodity Tracking), Accounting, Fixed Assets, Invoice, AR (Payment / Collection, Payment Plan), Demand Management, Check / Bond, Payment Transactions (Partially collection), Credit Card, Bank, Cash, Currency Tracking, Inflation Accounting, Additional Tax, Foreign Exchange Calculator, Trading Currency, the Table and Pivot Reports, Task Scheduler, Workflow provides Administrator Console and Webmaster modules.
3. Microsoft® SQL Server® 2012 R2/2014 Express Edition can be used as database with Logo GO 3 main packages. Logo GO 3 requires at least 16 GB Ram and 10 GB disc size. Microsoft® SQL Server® 2014, Microsoft® SQL Server® 2016 and Microsoft® SQL Server® 2017 can be purchased from Logo's authorized business partners.
4. User increases that are added onto basic packages individually or consecutively increases user number.
Example: 3 users are obtained when "+2 users" increase is installed onto Logo GO 3 main package. There is no need to buy any user increase if it is not specified in the list for the options that are used with the sets.
5. The main pack is available in English, Turkish and one-preffered language. If the users wish, Arabic, Azeri, Persian and Russian language pack/s except these can be purchased. Language Pack Price is valid for only one language. Example; Valid LEM owners should pay 930x2=1.860 USD for Arabic and Persian Language Packs both.

− Options

6. User-independent modules' user numbers are limited by the Logo GO 3 user number.

− Product transition explanations

Logo GO 3 transition from Logo GO Plus

7. Logo GO Plus users can switch to Logo GO 3 solution. Before they switch to up to date product, they should update their LEM. If the end date of "Overdue LEM" is more than 30 days ahead of the order date, it is enough to purchase Overdue LEM alone. If the end date of Overdue LEM is closer than 30 days from the order date, Standart LEM should also be purchased. After the LEM update, they must pay 40% of the standard LEM price of the licenses they have.
8. Invoice of the product that is upgraded should be delivered to Logo.

Transition from terminated SME products to Logo GO 3

9. Transition includes main pack, user increase and modules. (except production module) Transition from terminated SME Products (GO Pro) to Logo GO 3 is made by base price and per user price calculation.
(transition price= base price + (user number x user price))

− LEM

10. LEM price for Logo GO 3 product is 10% of license prices.
11. LEM price is calculated by taking 10% of all current license price of products, user increase and options.

− Additional products and services

12. The users who use applications that write data without adaptation tools need to obtain a Database Access License.
13. Logo Mind Navigator is available only in English and Turkish.
